

# PDF Share Forms ShareSync

1

## Collaborate on the go

ShareSync gives you offline access to SharePoint libraries and lists. Data synchronizes when internet is available.

2

## Collaborate with customers

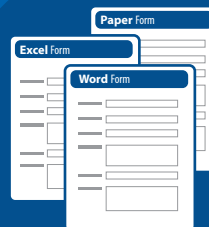

ShareSync kiosk mode, which gives access to allowed functionality only. Pass the device to you customer and let him work for you.

3

## View and edit your data

View SharePoint files directly on your iPad and iPhone, including PDF forms, Office documents, images, videos and many more.

4

## Work with PDF forms natively

ShareSync supports PDF forms natively – just open prepared template, fill it in and press Submit button. Data will be exposed to your SharePoint library automatically.

5

## ShareSync is free

Download your own copy from AppStore today and enjoy mobile SharePoint collaboration.

\* Advanced features could be accessible only in some configurations
